Dr Peter H. Duesberg  
229 Stanley Hall  
U.C. Berkeley 94720

Dear Peter:

Thank-you so much for the paper - just in time to sharpen my claws for my presentations in Vienna. I was quite flattered at being twice asked if I was a student of yours! I enc. two addresses and \$50.xx for you to mail one copy to each. Balance is for postage & my copy (rec'd)

Enc. are a few things. Note that FDA says BFP<sup>b</sup> for syphilis are safe donors! This is unbelievable! Also, I may be in SFO Oct 24-28 for the APHA to conduct my little roundtable on syphilis serology. I would be delighted to get together, if you had an hour or two - my treat.

I will be in Helsinki Aug 29 - Sept 4 at the ISSDR bi-annual W.H.O.-STD. meeting presenting data from our Toronto Western Hospital HIV clinic on sy-sero in 507 HIV ab<sup>+</sup>pts.

Re progression and clotting factor purity - the Lancet May 29 is very weak scientifically in discrediting the purity benefit.

Berlin was really disappointing - bankrupt is bankrupt!  
all the best.
